

TEAM: ChefBatMan

Group Members:

1. Chenyang Fang(cf2843)
2. Wan Xu (wx2227)
3. Guancheng Ren(gr2625)
4. Tian Niu(tn2415)

Part 1:

We had our demo on 11/23/2020 4PM EST.

Challenges:

There are still a few functionalities we haven't implemented during the demo with Minxuan and there are some bugs we realized we have:

1. Note deletion is not yet implemented in our first demo and it will be ready for the final demo.
2. We should change the "Notes" item to "View All Notes" in the navigation bar to avoid confusion.
3. In the upload page, we should implement an auto-complete functionality so the users know what course number is valid.
4. Enter key doesn't work properly in the search bar, user need to manually tap the search button to search.
